BIOGRAPHY

Understanding the Age of Intelligence Explosion

Charlie Ang, a digital futurist and visionary, equips organisations with strategies to adapt and excel in the Age of Intelligence Explosion. His work emphasises the transformative power of the 4th Industrial Revolution, where industries and societies are shifting from traditional 3.0 models to the dynamic 4.0 archetype. From economic frameworks to political systems, Charlie highlights the sweeping changes reshaping the world, encouraging leaders to embrace innovation for sustainable success. Since 2013, Charlie has championed the 4.0 model, aligning with the World Economic Forum's 2016 vision of the 4th Industrial Revolution. By understanding and leveraging cutting-edge technologies such as AI, robotics, and digital platforms, leaders can position their organisations at the forefront of this seismic transformation.

Preparing for the Perfect Storm of the 2020s

The 2020s are marked by unprecedented challenges, which Charlie calls the "Perfect Storm". This era sees the convergence of technological acceleration, geopolitical upheaval, climate crises, and demographic shifts. Charlie offers actionable strategies to navigate this turbulent landscape, ensuring organisations not only survive but thrive amid disruption. Through his keynote speeches, Charlie provides tailored roadmaps for business leaders, addressing the complexities of digital transformation and fostering resilience in the face of uncertainty. His frameworks empower executives to innovate while maintaining a human-centric approach, balancing technological advancements with ethical considerations.

Building a Resilient, Future-Ready Workforce

Incorporating over a decade of experience, Charlie's approach is deeply rooted in strategic futures, technology, and innovation. His educational background from prestigious institutions such as Oxford, Stanford, and Singularity University equips him with the tools to deliver insights that resonate across diverse industries.

Charlie's ability to anticipate and decode global trends makes his keynotes invaluable for corporate audiences seeking to adapt and excel in an ever-evolving digital economy. Organisations that engage with Charlie gain not just theoretical knowledge but actionable steps to prepare for the AI-driven future, where the advent of tools like ChatGPT accelerates the pace of change. As industries transform into their 4.0 versions, Charlie's guidance ensures they remain ahead of the curve. Charlie emphasises that winning in the 4.0 future requires fostering a workforce skilled in digital literacy, innovation, and adaptability. His frameworks prioritise continuous learning and human-centricity, enabling organisations to create value and maintain relevance. By preparing for rapid technological advancements, companies can align with market demands and seize opportunities for exponential growth.

WHAT PEOPLE SAY

"Your insights were not only thought-provoking but also incredibly inspiring. The way you broke down complex concepts and made them accessible was remarkable. I've already heard so much positive feedback from attendees who were captivated by your ability to connect the dots between emerging technologies and real-world applications. It's clear that you have a deep passion for the subject, and it really shone through in your talk."

— Innes Macleod, Innotribe & Discover Manager, Swift | Sibos

"Your insights into the Fourth Industrial Revolution and its impact on our lives and businesses were very well received and certainly gave our delegates plenty of food for thought."

— Erik Juul-Mortensen, President & John Rimmer, Managing Director, Tax-Free World Association (TFWA)

"We could not have done this without your help and would like to extend our most sincere gratitude for your significant contribution in making a success of the Conference. We would specifically like to thank you for your insightful presentation on the "Perfect Storm in 2020s: Previewing and Preparing for the Four Mega-Disruptions" session, and for all the time and effort you have spent on this well-delivered session despite your busy schedule."

— Steve Tunstall, Co-founder and General Secretary, Pan-Asia Risks & Insurance Management Association (PARIMA)
