BIOGRAPHY

Conor Grennan Speaker: Chief AI Architect at NYU Stern

Conor Grennan is the Chief AI Architect at **NYU Stern School of Business**, helping the school get up to speed on **generative AI**. As the Chief Learning Officer in this space, he works with MBAs, faculty, and administration to demystify AI and make it more accessible. He is also the Head GenAI Trainer, guiding the community to become generative AI fluent. Before this role, *he was Dean of Students at NYU Stern for 10 years*, leaving a lasting legacy with the student body.

Founder and CEO of AI Mindset

Beyond his role at NYU, Conor Grennan is founder and CEO of AI Mindset, helping professionals, leaders and organisations through a new approach to generative AI. His **AI consulting company** has worked with top-tier companies like OpenAI, McKinsey, NASA, PWC, ServiceNow, SAP, JP Morgan, DaVita Healthcare and many others. With such a wide range of clients, he is a trusted voice in AI consulting and education and offers AI insights to help businesses navigate the culture shift to integrate AI effectively. His approach is based on a strategic framework that allows organisations to get the most out of AI.

Keynote Speaker and AI Trainer

Conor Grennan delivers generative AI training for the Chief Executive Group and teaches AI for Business on LinkedIn Learning. He has been a **keynote speaker** at major industry events including the Generative AI World Conference, Generative AI Week and PWC’s Trust Leadership Academy. His sessions train professionals, offering insights into the generative AI revolution and ensuring AI is not just a tool but a transformative force. His expertise has also been featured at gatherings like the Franchise CEO Summit and the Chief Executive Annual Summit, leaving audiences empowered and solidifying his reputation as a key figure in the AI space.

Published Author and Media Personality

Conor Grennan is making waves in AI—and also a New York Times and #1 international bestselling author, with his books translated into 15 languages. Besides writing, he's a sought-after keynote and TEDx speaker and executive coach. His work on AI has been featured in Entrepreneur, Business Insider, and Vox. As a **LinkedIn Learning instructor,** he teaches on AI, leadership and communication. He's been featured in Entrepreneur, the NY Times and other media. He co-hosts the AI Applied Podcast, which is top 20 in business news. On LinkedIn he's a Top Voice in Public Speaking with over 70,000 followers.

Humanitarian Work and Personal Life

Conor Grennan's impact goes well beyond his career. His dedication to helping trafficked children in Nepal through **Next Generation Nepal** has made a huge difference in countless lives. This commitment earned him the title of Huffington Post Game Changer of the Year. In 2014, His Holiness the Dalai Lama recognised his efforts with the Unsung Hero of Compassion Award. Conor studied at the University of Virginia, earning a BA, before completing his MBA at NYU Stern. He now lives in Connecticut with his wife, Liz—an AI specialist—and their two children, continuing to inspire folks around the world.
