- Global Forces & Scenarios
- Innovating into the Future

BIOGRAPHY

Rohit is a global futurist, award-winning and thought-provoking speaker, strategic advisor, author, entrepreneur, and the CEO of Fast Future. He delivers keynote speeches, executive education, consultancy, research, and future-focused leadership mentoring to clients internationally. He works with major corporations, governments, professional services, investors, associations, business schools, and NGOs to help them anticipate, prepare for and create the future. He has delivered over 1500 keynote speeches and executive workshops in 70+ countries on six continents.

Rohit leads Fast Future Publishing – delivering a series of multi-contributor books exploring the emerging future. He is the co-author of *Designing Your Future*, lead editor and a contributing author for *The Future of Business*, and editor of *Technology vs. Humanity*. He is also a co-editor and contributor for *Beyond Genuine Stupidity – Ensuring AI Serves Humanity*, *The Future Reinvented – Reimagining Life, Society, and Business*, and *A Very Human Future – Enriching Humanity in a Digitised World*. He is also working on two forthcoming books – *Unleashing Human Potential – The Future of AI in Business* and *50:50 – Scenarios for the Next 50 Years*. Rohit delivers fully researched and completely customised presentations for each keynote and has the audience spellbound with his story of ending up on Interpol’s most wanted list due to identity theft. His primary objective is to support clients in exploring and shaping the emerging future – putting people at the centre of the agenda. He helps clients understand the key future factors driving innovation, growth and disruptive change. Rohit highlights the new thinking and business models being enabled by exponential technologies such as AI, blockchain, and hyperconnectivity and uses case studies to demonstrate how firms across sectors are reinventing themselves in the era of smart machines. He then explores the mindset shifts and leadership capabilities required to compete in the emerging future. Finally, he demonstrates how to harness the next waves of innovation to unleash human potential and ensure a very human future for our organisations.

WHAT PEOPLE SAY

"Rohit Talwar was a highlight at the 1st European Futurists Conference Lucerne, as a speaker and as a facilitator. In fact, for the state secretary for research and education of Switzerland – a sponsor of our conference – Rohit was "simply the best"."

— **Georges T. Roos, Director European Futurists Conference Lucerne**

“Rohit Talwar is a unique communicator. His capacity for combining fact with narrative, balancing right and left brain and mixing education with entertainment make his presentations compelling. In the cluttered world of professional facilitators, guest speakers, moderators and consultants, Rohit is both a refreshing change and a valuable investment.”

— **Christopher Brown Managing Director TTF (Tourism & Transport Forum) Australia Ltd**

“When Rohit genuinely speaks from the heart, about Vision 2020, and where he sees the world moving, it leaves the entire auditorium spell bound, and engrossed in his highly researched, and very creative and innovative visual presentation. Moreover, his interaction with the audience during his Q&A sessions is crisp and impactful. And salute, once again, to his thought provoking, visionary foresightedness.”

— **Cyrus Magol - Emirates Bank Dubai**
